Alterations and Additions, 12 Hipwood Street, Kirribilli NSW 2061

We were appointed by Tony and Christine Cook to provide architectural services for alterations and additions to their home at 12 Hipwood Street, Kirribilli.

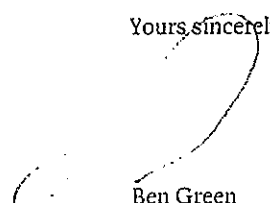

The project involved substantial alterations and additions to the existing heritage listed terrace house and included the retention and underpinning of the street façade, the construction of a new open plan living, dining, kitchen area with associated external landscaping on the ground floor and three bedrooms, 2 bathrooms and a walk in wardrobe on the first floor.

The construction programme for the works was from September 2008 until occupation in December 2009.

This has been an effective collaboration, resulting in a building of high construction quality. Beebo showed a clear understanding of the design intent of the project and our collaborative process allowed complex, precise details to be achieved.

We are pleased to have worked with Beebo Construction Pty Ltd on this project and would collaborate on similar projects with them again in the future.

Yours sincerely

Ben Green
